Sierra Chart Educational Materials and Tools

- [Sierra Chart Handbook \(Unofficial\)](#)

Sierra Chart Personal Assistance

This section list people who provide personal assistance services for Sierra Chart users. This would be good for new users who need help with the more advanced functionality of Sierra Chart. They can help with things like creating particular chart configurations, whether basic or advanced, and Chartbooks.

|  | Plug & Play Sierra Chart templates and installation support as well as individualized templates upon request. |

We have one goal

Beating Wall Street at its own game. With decades of experience and a very successful proprietary trading model we want to do it in a big way now. Our goal is to start a hedge fund, make it world famous and take it to the top.

- We understand the hedge funds world and unlike many of them who make their money largely from commissions and keep their trading models secret, we believe innovation requires transparency.
- We believe in a hedge fund that allows its investors to understand the investment strategy. For this reason we perfected our trading strategy and consequently created a trading course where we explain our methodology step by step.
- If you are interested trading on your own, we allow you to trade the very same strategy we'll be using in our hedge fund and help you achieve your goals as a trader and win the Wall Street game.

PriceSquawk is an audible trading tool, allowing traders to listen to price action, buying and selling activity and volume flow in any market for an edge. Real-time market data is converted into trade sounds, price action commentary and volume focused alerts, adding an audible dimension of market information to your current trading setup. Utilize PriceSquawk audio to enhance your focus on markets and stay tuned to market leading order flow across multiple asset classes. Download your 14 day free trial of PriceSquawk and access our free prop shop training exercises.

Forgiving Computers helps you with consistent rule based entries and exits. Our systems for automatic entries support range bound markets with scalping tools, and trending markets for multiple contracts with runners. Full Manual control is always maintained. You get complete flexibility, with your choice of symbols, time frames, and bar types. You can choose to only view the signals, or to have them executed on your behalf. We also offer automated trailing stops based on popular methods, such as prior bars and volatility. We can provide online personalized Sierra Chart training and setup through remote connections to your platform.

[Emini Methods](#)

This site offers simple systems and methods for trading emini markets and stocks developed by a veteran trader and a long-time Sierra Chart user.

Founded by a PhD mathematician, Hidden Force Flux offers a unique platform uncovering order flow events hidden to most traders. Hidden Force Flux tracks and highlights these events in real-time, enabling traders to gain an informational advantage that can take their trading to the next level. Using this platform, traders can spot high-precision reversal/continuation points in the market, order flow support/resistance levels and more. Gain the edge-become a better informed trader with Hidden Force Flux.
