

TPO Letters/Blocks For Certain Time Periods Are Missing

If TPO letters or blocks in a [TPO Profile Chart](#), do not display for certain time periods, then do the following:

- Go to **Chart >> Chart Settings** and make sure the **Start Time** and **End Time** cover the time period you want to view.
- If you still have a problem, remove the **TPO Profile Chart** study from the chart and ensure that there is data in the chart for the missing time periods.
